EXPERIENCE

Delhi Metro Rail Corporation

📅 June 2019 – July 2019 📍 New Delhi

- Summer Intern at DMRC.
- Worked on adding a new feature to existing DMRC Android application.

BVPIEEE

📅 Dec 2017 – July 2019

- HKN - Infra executive (Aug 2018 - July 2019)
- Computer Society - Chapter representative (Aug 2018 - July 2019)
- Conducted a certified Android Development workshop series for 20+ students.

FERVOUR X - 10th Edition

📅 8th Mar 2018 📍 New Delhi, India

- Fervour X - Annual Techno-Managerial fest of BVPIEEE.
- Volunteered for managing the event Line Following Challenge.

WIEHACK - BVPIEEE

📅 2nd - 3rd Oct 2018 📍 New Delhi, India

- In organizing team of WIEHACK - An All Women Hackathon

INNOVICON

📅 2nd Feb 2019 – 3rd Feb 2019 📍 New Delhi, India

- An Artificial Intelligence theme based conference organized by BVPIEEE, IEEE student branch of BVCOE, New Delhi, India.
- In organizing team of INNOVICON.

CERTIFICATIONS

- Qualified CodeChef Certified Data Structure and Algorithms Programme (CCDSAP) Foundation Level.
- Completed Robotics and Arduino development series by Robotics and Automation Society (RAS) BVPIEEE.
- Completed Android development series under BVPIEEE.
- Participated in IEEEExtreme 2018 - 24 Hour Programming competition.

EDUCATION

Bachelor of Technology

Bharati Vidyapeeth's College of Engineering, New Delhi

📅 Aug 2017 – Present

- Computer Science And Engineering

CBSE Board (XII)

Kendriya Vidyalaya Paschim Vihar

📅 2017

- 76.2%

CBSE Board (X)

Kendriya Vidyalaya Paschim Vihar

📅 2015

- 8.8 CGPA

HONORS & AWARDS

Digifest Bikaner

- 🏆 Received 1st Prize at Rajasthan Hackathon 5.0, funded 15 lacs for project.

SKILLS

C, C++, Python, Java

Competitive Programming (Beginner)

HTML5, CSS, JS

RDBMS, Linux

Deep Learning

ACHIEVEMENTS

- Qualified upto Qualifier level in Texas Instrumentation IICDC 2018.
- 1st prize winner at Rajasthan Hackathon 5.0 Digifest, Bikaner 2018
- Ranked in top 10 in INSPIRE AWARDS 2015 State Level.
- Qualifier in INSPIRE AWARDS 2015 National Level.

SOFTWARES

Android Studio, Arduino IDE, Visual Studio, V REP, Jupyter Notebook, Processing 3, Brackets

HOBBIES

Anime fan (Otaku) - Steins;Gate and Your lie in April being the favourite. Musical instrument - Guitar (Intermediate), Sports - Badminton and Swimming

PROJECTS

Robotic Snake

- Developed a Snake-Bot that can prove to be useful for surveillance.
 - Has applications in disaster management scenario.
 - Integrated computer vision applications.
 - Boards used: Arduino Mega and Raspberry Pi 3
-

Atmega 2560 based path planning bot

- Path planning implementing Dijkstra algorithm
 - Autonomous bot with arm to uplift and hold objects of comparable size.
 - Made for eYantra 2018 competition.
-

Lift

- Constructed a lift like mechanism.
- Can lift weight upto 4 Kg.
- Arduino development based project.
